

The Creative Craft: Kickstarting Your Writing Career

Have you ever been told that your prose writing is flat and uninteresting? Do your characters need better dialogue? Maybe you are lacking the funds for full tuition or the time to take on a full course. Whichever barrier you face that keeps you from pursuing a career as a published author, this is your chance to break that barrier.

With the Creative Craft, you are able to learn at a self-paced speed, deadline-free, for a reasonable price. Learn from award-winning authors on best practices in creative writing and let your imagination soar.

Why the Creative Craft?

The Creative Craft is a cutting edge, self-paced program that teaches you how to write a creative story that readers want to engage in. By choosing the Creative Craft, you will be welcomed into an elite and private Facebook group home to award-winning authors rooting for your success.

Does this make you intimidated? Don't be. There will be other students like yourself with similar questions that can be posted in the group and answered by our authors. Learn how to:

- Write intriguing dialogue that pushes the story forward
- Plot your story and neatly tie all of your ideas together
- Practice the helpful tool of outlining

- Craft and prepare your novel for publication
- Work with our program's own literary agents to find potential publishers for your work

Pick Your Poison

Do you see yourself as the next J.K Rowling or J.R.R Tolkien in fantasy writing? Maybe you're more of the Shakespeare type and gravitate towards sonnets. Do you enjoy accurate historical fiction writing or future-predicting science fiction? We've got you covered in all of these genres and more.

Don't believe us? Take a look at what our Ernest Hemingways of the program have to say!

Testimonials:

"I've always been a writer but never had the time or extra money to pursue it professionally. I'm a full-time nurse and recently, a new mom. I decided to try the Creative Craft during my maternity leave to fill time in my day when the baby was napping. It's needless to say that this program definitely delivered! My baby is now 6 months old and I am nearly finished a book of poetry! Creative Craft partners with their writers to help them succeed. Our next step together is to find a publisher once my collection is done!" - Anna, 29

"I did what all aspiring writers do when they think they will be serious about their writing. I bought the desk, the thesaurus, reference books, a fountain pen, a notebook and even a typewriter! It stayed like that for months and during that time got toppled with laundry. I came across the Creative Craft through a Facebook ad that my friend liked. Being a pretty scrambled thinker, the program taught me to organize my thoughts and ideas. Only two weeks in and I just finished my novel outline! Guess who isn't using their desk as a laundry hamper anymore?!" - Tom, 33

Act now and receive our Creative Craft Bundle at a discounted price! Altogether, the value of this package is \$399; order in the next 10 days and you pay \$99 with a 30-day back guarantee if you're not satisfied!
